LEO'S FINAL RESTING PLACE

His Desire to be Buried in St. John Lateran.

Tomb Will Consist of a Sarcophagus With Bas Relief, Two Niches, Two Statues and Two Medallions.

Ronie, July 9 .- That the pope fully realizes that his end cannot long be deferred is shown by the attention he has given during the last few days to the details of his final resting place. It is well known that he has discussed his testamentary dispositions and expressed his wishes as to the place and manner of his funeral. Shortly before he was taken ill the pontiff repeated to Cardinal Satolli his desire to be buried in the church of St. John Lateran. The spot he designated is on the left of the apso above the entrance to the sacristy, corresponding to the opposite niche in which is the monument erected by himself in 1891 to Pope Innocent III. It is said that a statue of Pope Leo, forming part of the monument, has alread been made. In other respects the tom will resemble that of Innocent III. consisting of a sarcophagus with a bas relief, two niches, two statues and two

If there are real martyrs at the vati-can they are Profs, Lapponi and Maz-zoni, who are inundated with letters and telegrams from the four quarters of the earth imploring them to save their illustrious patient who is so necessary to the church and the world. Unof world-wide celebrities, some of the senders asking for telegraphic news two or three times a day. A private secretary and a large fortune would be required to answer them all, which the eminent professors certainly have

no intention of doing.

It does not even end there, for admirers and worshipers of Pope Leo are sending infallible remedies which they say if only employed are sure to save the pontiff's life. An American has sent what he describes as an extraordinary nutritive liquid which would restore the dying to health. A South American has sent a hemorrhoidal un-gert in a very rich flask. Besides these there are prescriptions from druggists and others, and offers already to em-balm the pontiff. Others offer to make a death mask; some want to paint a picture of Pope Leo, and one writer even offers to impart the secret of petri-fying the body into an everlasting status to be offered to the pope's

A new phase of the historic strife between the noble families of Colonna and Orsini has been developed by the illness of the pope. Hoping to reconcile this ancient family hostility it has been the practise to designate the head of each house as a prince assistant to of each house as a prince assistant to the pontifical throne, these two posi-tions being the highest lay honors in the gift of the pope. In the case of the coronation of a new pontiff the two princes stand on either side of his holi-ness. The head of the Colonna family, Don Marco Antonio Co. among the visitors at the vatican to day, but the Orsini family is temporar-tly unrepresented in this high dignity. Don Fillippo Orsini having resigned in favor of his son, Don Domenico, prince of Solefra, and the latter's nomination not having yet been confirmed by Pope Leo. The Orsinis are thus without representation, and this circumstance constitutes an interesting historical

deputation arrived at the vatican today from Carpineto, the birthplace of Pope Leo, the news of the pontiff's alarming condition having penetrated even to that obscure place. Carpineto is a little town among the Voschian hills, with streets so narrow that two donkeys can not pass each other, and an hour distant from any railway, but with a water supply and electric lights, the former the gift of Pope Leo himself. The village itself nourishes a species of worship for Leo. The deputation pene-trated as far as the ante-chamber of the sick pontiff, who immediately said he would receive them, but for once gave way to the appeals of those around him and sent instead his kindest wish-

The vatican has received dispatches The valican has received dispatches from all parts of the world, from the cardinals abroad, stating that they are leaving immediately for Rome. One of the most distant, Cardinal Sydney, N. S. W. telegraphs that he sailed today, As he will travel half way around the globe, it is doubted that he will arrive in time for the conclave. Some authortime for the conclave. Some authorities hold that each cardinal has a right to demand the postponement of the conclave to permit him to reach Rome, but it is doubted if the selection of the pope will be delayed on account of the near arrival of one cardinal. It is recalled that the American Cardinal McCloskey arrived too late to participate in the conclave which selected Pope Leo. It is an lateresting fact that Archbishop Farley, then secretary to Cardinal Mc-Closkey, was also too late to participate as a secretary in the conclave, but Archbishop Farley took part in the ceremony of Pope Leo's coronation, and through a singular coincidence his nommation as archbishop of New York occurred at what was probably the pon-

tiff's last consistory.
Gratification was expressed by the prelates here on learning that Cardinal Gibbons sailed today for Rome. As the conclave will not take place until at least 10 days after the demise of the pope, his eminence will arrive in ample time to participate. Outside of Americans. Cardinal Gibbons' coming excites cans, Cardinal Giobons coming excites widespread interest, as he is regarded as the representative of the modern progressive spirit of the United States. The earlier hopes had been inspired

largely by the pontiff's outward evidence of vigor, as he was able to rise, walk and command all his faculties, but the later consultation discoised that

these outward evidences of strength were entirely deceptive, as the real danger consisted in the gradual internal progress of the insidious diseases.

ors were conspicuously posted.

SIMPLICITY IN SICK ROOM.

One of the most remarkable features

of the sick room is the absolute sim-plicity and the entire absence of the usual elaborate equipments found in the sick rooms of distinguished pa-

tients. There are no trained nurses the only attendants beside the doctors

being the pope's valets, Centra and De-castro. The doctors are without a corps of assistants and there are none of the modern appliances for refriger-

Tomorrow (Saturday) The Last Day of the

URING the past fortnight this sale has attracted mighty throngs of the most critical purchasers in Salt Lake and the surrounding country and how eagerly they bought! Besides this, they didn't hesitate to express their astonishment and delight.

layed stocks have been arriving, and such stocks, bought underpriced, and when we say that to rid ourselves of them at short notice we overlooked all thought of profit, you can imagine what great values await you these last two days of this wondrous selling event.

THE SPECIAL FEATURE OF THIS SALE IS

AND IN MANY CASES PART OF THE COST.

Remember These Great Values Cease Saturday Night.
